To whom it may concern,

Lazy Days Beach rentals has been our vendor for many years. Their service to our guests is excellent. Our guests regularly comment on the professionalism and wonderful service they receive from Lazy Days employees. Often the first question we hear when the guests are making repeat reservations each year is "lazy Days is still there right?". They build relationships with our guests and we consider them an extension of our Hampton Inn staff. Their service adds value to our guests experience at the hotel. Adding them to your services would be an excellent addition to the wonderful service you already provide your guests.
